3 Project Serendipity Diary

Date	Serendipity Event	What did you do to Generate the Serendipity?	Challenge Stepping and/or Milestone
22-7-2015	Ballast overgenomen door Renaissance Construction	And what's the effect on time, budget, quality, safety or health. Veel effort in gestroomd om planning eenvoudiger te maken en ook effort ingezetken t.b.v. van What-if voor Ballast-Nedam	13 sterker 29-mrt-18 staat sterker
16-8-2015	Buispaal uit kraan gevallen net naast machinist Las niet goed!!!, ketting leggen speedleiding Werk was wel klaar	Safety bewustzijn zal nu sterker worden waardoor het verloop van het werk veiliger zal zijn Dit versterkt ook de Milestone 29-mrt-18	S + T 29-mrt-18 staat sterker
2-10-2015	Damwand op (loze) gasleiding	Verveld aan Afdeling Veiligheid dat het als een 'cadeau' gezien kan worden -> Procedures nogmaals naten, meer inzicht! Daardoor wordt het werk veiliger. Zelf is aldeling planning bezig om TTI scherp te krijgen zowel ontwerp als uitvoering (met Dienstgebouwen) Ook aan milestone 4 (zie boven) wordt hard gewerkt!!	S + T 29-mrt-18 staat sterker
2-10-2015	Brugdek schuift van dieplader af	Geen persoonlijk letsel.... Bezig met Shutdown aanpak van TTI	S + T 29-mrt-18 staat sterker

In control of unknown risks, get serendipity + chance on Quantum Leap on the project

The Blue Swan theory FOR THE PROJECT WORLD

Murphy's or Alfred's

Serendipity The luck of the efficient

HOW TO BECOME EFFICIENT TO GENERATE YOUR LUCK?

Serendipity

- TAKE TWO GOALS: A ONE FOR THE WORLD (YOUR WORK)
- BE A YES-PERSON
- REACH YOUR GOALS AT THE COST OF NOTHING

For Balance

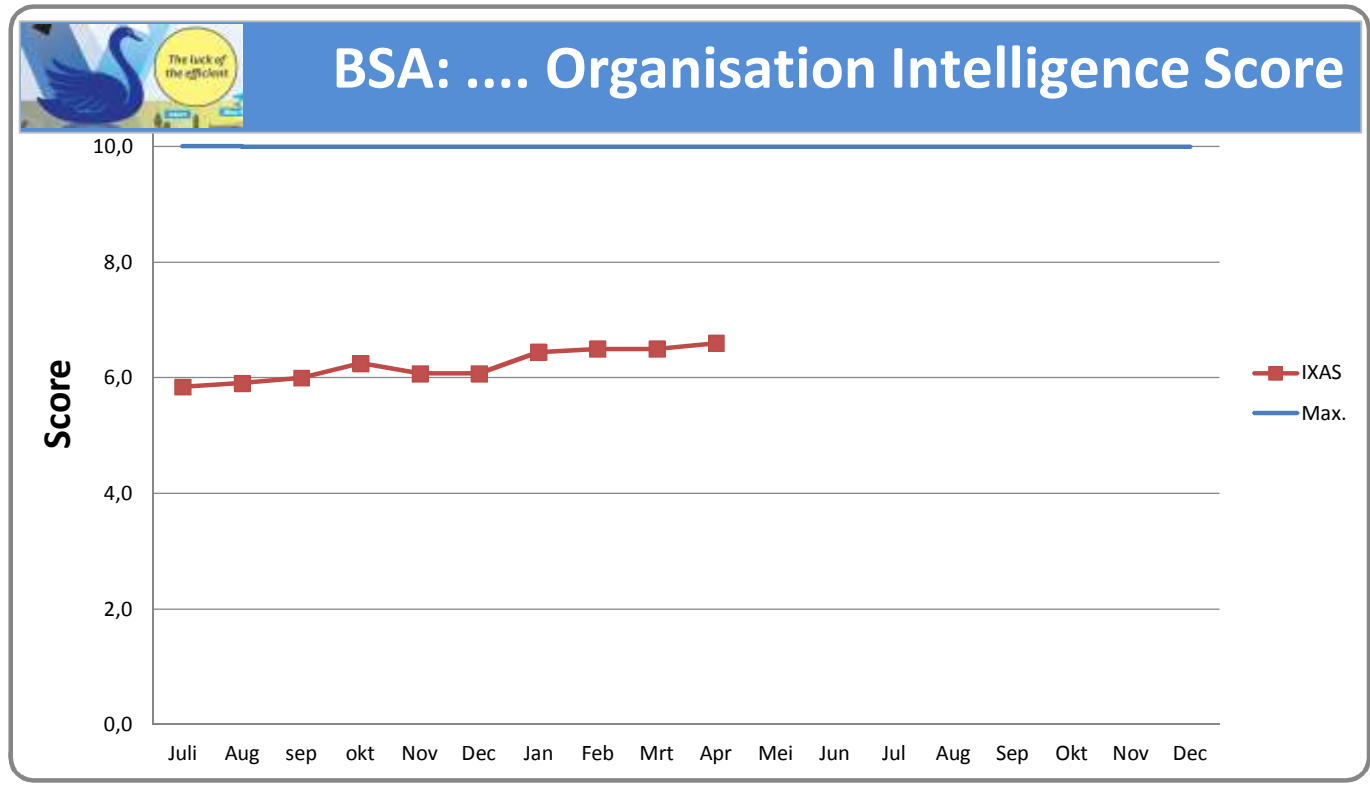

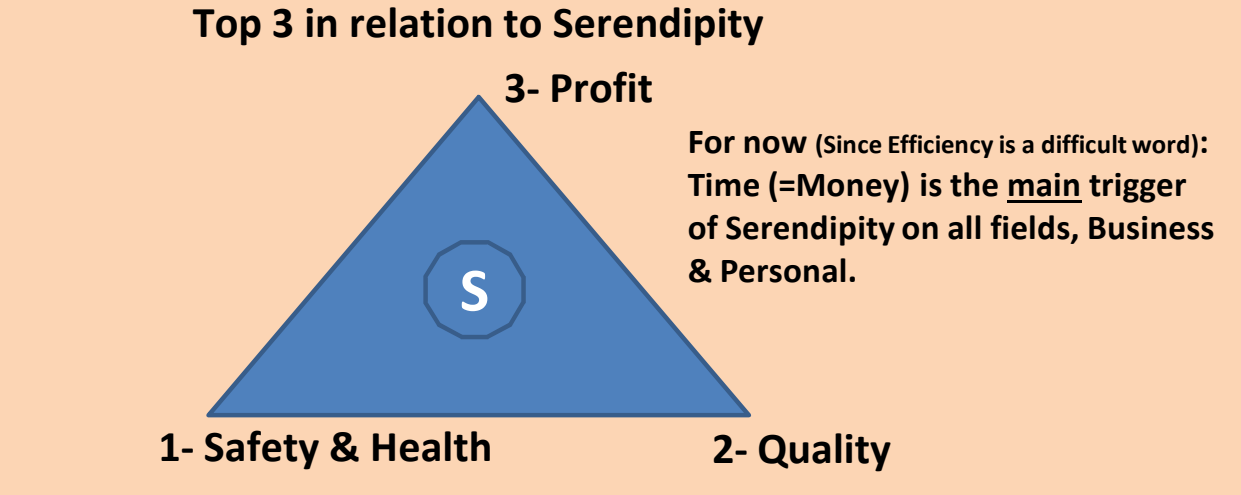

To open yourself for new insights

It's very hard to do but NOT impossible. Think and think hard!!

<http://www.ivpp.nl/geluksmeter/> -> Geluk is niet hetzelfde als serendipiteit!!

<https://www.knaw.nl/nl/actuel/agenda/serendipiteit-de-kunst-van-hg> -> Interessante videos ook over "Niet dichtplannen"

A big Serendipity event happens aprox. 12 times a year and a Quantum Leap [which always causes a paradigm shift] once in 3 to 10 years. The serendipity rain can fall on the business, on you, in your personal environment or further in the world. What we do here effects other projects in our mother companies and all other businesses and (semi-)government related companies.

User Guide:

- Update and status (red line) the planning once a month
- Note every Serendipity event with date and "cause" (The bigger ones only)
- Draw that event on the Pyramid. Take the "calender" into account.
- Analyze after every event or every month:
 - a- Is it easier to reach your goal?
 - b- Can the goal be set earlier? Time is valuable!
